Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 **Control parameters** Components with workplace control parameters Contains no substances with occupational exposure limit values 8.2 **Exposure Controls** Appropriate Engineering Controls Handle in accordance with good industrial hygiene and safety practices. Wash hands before breaks and at the end of the day. These recommendations are advisory only and must be evaluated by an industrial Personal protective equipment hygienist and safety officer familiar with the specific situation of anticipated use by our customers. They should not be construed as offering an approval for any specific use scenario. Wear appropriate safety glasses with side shields. Use equipment for eve protection Eye/face protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU). Skin protection Wear chemically resistant rubber gloves, when handling this product. Use proper glove removal techniques (without touching gloves outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use. Wash and dry hands. Body protection Impervious clothing protecting against chemicals, should be selected specifically for the work place, depending on concentration and quantity of the hazardous substances handled. The resistance of the protective clothing to chemicals should be ascertained with the respective supplier. Where risk assessment shows air purifying respirators are appropriate use a full face Respiratory protection respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a back up to engineering controls. If the respirator is the sole means of protection, use a full face supplied air respirator. Use respirators and components tested and approved under appropriate governmental standards such as NIOSH (US) or CEN (EU). Control of environmental exposure Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.
