

Aurochemicals Standard Ingredient Form

This form facilitates the verification process for enrolled participants. The Non-GMO Project (NGP) Standard requires FoodChain ID to assess all potential GMO (*) risk ingredients, including highly processed ingredients and sub-ingredients. Detailed information from suppliers is required and highly appreciated. Thank you for your cooperation.

Name of Ingredient:	STRAWBERRY FURANONE 10% IN	ETOH, Synthetic	FEMA Numl	ber 3174
Name of Ingredient	Manufacturer: Aurochemicals			
1. Is this ingredient 95+	⊦% Certified Organic?	□Yes	s □No ⊠ Org	ganic Compliant
2. Has this ingredient b	een verified as a product through the N	lon-GMO Project Produc	ct Verification	Program?
				□Yes ⊠No
questions, move to the 2, please proceed to qu		gnature section. If you h	ave answered	•
=	 Certificate of Verification for the NGP verificate or listed in an 	·	ent with the	
	receive/handle the material before receive		opacker?	\square Yes \square No
*Peri	y handle the NGP verified product in pe meable form: handling of NGP verified p	product in unsealed form		□Yes □ No
If you have answered q handling location.	uestion 2.3 yes, please provide SOP's fo	r segregation and trace	ability for the t	third-party
_	any of its sub-ingredient and/or the sour modified or derived using Biotechnology		f the ingredien	it/sub- □Yes ⊠No
☐ A. The ingre (e.g. flax seed contain (or is oprocessing aid	s (check either box A or B, displayed be edient consists of a single input ("mono"): Select this option or used to process) any additives (i.e. presels (enzymes, solvents, extractants, micro box A, please skip question 5.	"). Please identify the sinly if this is a 100% single ervatives, carriers, anti-	e ingredient ar caking agents,	nd does not etc.) or
⊠B. The ingre more than one	edient contains multiple inputs ("compo e input.	und"). Select this option	າ if the ingredi	ent contains
	d below, list all of ingredient's raw mate			

The Natural Choice for Flavor and Fragrance Ingredients

Sub-Ingredient name	Identify all inputs used in manufacturing of sub-ingredient(s) or indicate that sub-ingredient is 100% raw material	Please check if the sub-ingredient is a processing aid ²
Example: Sunflower Oil	Example: 100% Sunflower seeds OR sunflower seeds, citric acid and vitamin E.	

Additional rows needed and supplementary list is attached. (Please sign and date supplemental list.)

The following questions apply to the ingredient itself, and if a compound ingredient, to ALL its sub-ingredients

and/or inputs used to produce its sub-ingredients, except micro processing aids. These should also be in the table above. Please answer the following questions for a proprietary formulation as well.	fully dis	closea
6. Does this ingredient contain any processing aids ² which are present at 0.5% or more?	□Yes	⊠No
If yes, please name the processing aid(s)* below:		
* For purposes of the Non-GMO Project Standard, fermentation microorganisms are not considered processing ai	ds.	
7. Is this ingredient or its sub-ingredients made through a fermentation process (using a microorgan	ism)? □Yes	⊠No
7.1 If Yes, is the microorganism genetically modified?3	□Yes	□No
7.1.1 If Yes, is this ingredient separated out from the fermentation medium*? (*The microorganism used for fermentation grow in specially designed growth medium which supplies required for the growth of the microorganism, such a medium is called the Fermentation Medium)	□Yes the nutrie	_
8. Is this ingredient or any of its sub-ingredient a microorganism?	□Yes	⊠No
8.1 If Yes, is the microorganism genetically modified? ³	□Yes	□No
If you have answered Yes to question 8.1 please answer the following questions:		
8.2 Is the microorganism viable? ⁴	□Yes	□No
If No, please explain how is microorganism are rendered non-viable (list processes used):		
9. Is this ingredient or any of its sub-ingredients an enzyme?	□Yes	⊠No
Please list ingredient/sub-ingredient(s) and/or all inputs to which your response applies:		
9.1 If Yes, is the enzyme(s) derived from a genetically modified organism? ³	□Yes	
If you have answered 'Yes' to question 9.1 please answer the following question.		
9.2 Is the enzyme still functional ⁵ in the finished enrolled product?	□Yes	□No

If No, please explain how the enzyme is deactivated/denatured (i.e. briefly describe processes used to render the enzyme non-functional):

10. Is this ingredient or its sub-ingredients, including inputs used to produce them, a product of syr	nthetic biology □Yes ⊠No
(i.e. produced with synthetically created nucleic acid sequences and/or genes)?	□ Yes ⊠No
If Yes, please list all ingredient/sub-ingredient(s) and/or all inputs to which your response	applies:
11. Is this ingredient or its sub-ingredients, including inputs used to produce them, derived from ar (e.g. dairy, meat, eggs, bee products, wool/hides, etc.)?	nimal sources □Yes ⊠No
If Yes:	
Answer the following for each animal-derived input (ingredient, sub-ingredient or any inp processing):	uts used in
 Is rBGH, rBST (recombinant bovine growth hormone or recombinant bovine somatotroping the livestock?) administered to \Box Yes \Box No
