Section 4: FIRST AID MEASURES

General Advice:	Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.
Contact with eyes:	Rinse thoroughly with plenty of water, seek medical advice
Contact with skin:	Rinse with cool water, wash with mild soap and warm water
Inhalation:	Provide fresh air, seek medical advice
Ingestion:	DO NOT INDUCE VOMITING. Give water and seek medical advice
Clothing:	Remove contaminated clothing and wash before re-use

Section 5: FIREFIGHTING MEASURES

Suitable Extinguishing Media	For small (incipient) fires, use media such as "alcohol" foam, dry chemical, or carbon dioxide. For large fires, apply water from as far as possible. Use very large quantities (flooding) of water applied as a mist or spray; solid streams of water may be ineffective. Cool all affected containers with flooding quantities of water.
Special Firefighting Procedures:	Do not stay in danger zone without self contained breathing apparatus Use water spray, from a safe distance to cool unopened containers. Contain escaping vapors with water. Prevent fire-fighting water from entering surface or ground water Keep away from sources of ignition-No smoking
Unusual fire and explosions hazards	Beware of vapors accumulating to form explosive concentrations. Vapors heavier than air and can accumulate in low areas. Development of hazardous combustion gases or vapors possible in the event of fire- Carbon Oxides.

Section 6: ACCIDENTAL RELEASE MEASURES

Personal Precautions	Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure

adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

Environmental precautions

Do not let product enter drains or allow discharge into the environment

Methods and material for containment and clean up

With absorbent, sweep up and discard in suitable container for disposal according to local regulations. After sweep up, wash down area and ventilate well.

Section 7: HANDLING AND STORAGE

Precautions for safe handling

Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Keep away from sources of ignition-No smoking. Take measures to prevent the buildup of electrostatic charge.

Conditions for safe storage

Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Contains no substances with occupational exposure limit values.

Personal Protective Equipment:

These recommendations are advisory only and must be evaluated by an industrial hygienist and safety officer familiar with the specific situation of anticipated use by our customers. They should not be construed as offering an approval for any specific use scenario

Impervious clothing, flame retardant antistatic protective clothing should be selected specifically for the work place, depending on concentration and quantity of the hazardous substances handled. The resistance of the protective clothing to chemicals should be ascertained with the respective supplier.

Respiratory Protection:

Required when vapors are generated and risk assessment shows air-purifying respirators are appropriate use approved full face respiration.

Eye Protection:

Face shield and safety glasses required for protection.

Hand Protection:

Wear chemically resistant gloves.

Industrial Hygiene:

Handle in accordance with good industrial hygiene and safety practice. Change contaminated clothing and wash them thoroughly before re-use. Application of skin protective barrier cream recommended. Wash hands after working with product.
