

Aurochemicals Standard Ingredient Form

This form facilitates the verification process for enrolled participants. The Non-GMO Project (NGP) Standard requires FoodChain ID to assess all potential GMO (*) risk ingredients, including highly processed ingredients and sub-ingredients. Detailed information from suppliers is required and highly appreciated. Thank you for your cooperation.

| Name of Ingredient: ISOAMYL PHENYL ACETATE, Natural (Export) | FEMA Number 2081 |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------|
| Name of Ingredient Manufacturer: Aurochemicals | |
| 1. Is this ingredient 95+% Certified Organic? | ☐Yes ☐No ☒ Organic Compliant |
| 2. Has this ingredient been verified as a product through the Non-GMO Project | Product Verification Program? |
| | □Yes ⊠No |
| If you have answered YES to question 2, please answer questions 2.1, 2.2 and 2 questions, move to the end of this document and fill out the signature section. If 2, please proceed to question 3. | |
| 2.1 Please provide the Certificate of Verification for the NGP verified product/product/ingredient name on the certificate or listed in an addendum. | ngredient with the |
| 2.2 Does a third party receive/handle the material before received a client's fa | cility/copacker? □Yes □No |
| 2.3 Does the third party handle the NGP verified product in permeable* form? *Permeable form: handling of NGP verified product in unseal | \square Yes \square No ed form. |
| If you have answered question 2.3 yes, please provide SOP's for segregation and handling location. | d traceability for the third-party |
| 3. Is the ingredient or any of its sub-ingredient and/or the source crop/raw matingredient genetically modified or derived using Biotechnology ¹ methods? | rerial of the ingredient/sub- □Yes ⊠No |
| 4. Ingredient properties (check either box A or B, displayed below): | % single ingredient and does not s, anti-caking agents, etc.) or |
| \Box B. The ingredient contains multiple inputs ("compound"). Select this more than one input. | option if the ingredient contains |
| 5. In the table displayed below, list all of ingredient's raw materials, additives, if fermentation media/substrates, and any other inputs that are used in the ingre- | |

The Natural Choice for Flavor and Fragrance Ingredients

| Sub-Ingredient name | Identify all inputs used in manufacturing of sub-ingredient(s) or indicate that sub-ingredient is 100% raw material | Please check if the sub-ingredient is a processing aid ² |
|---------------------------|---------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------|
| Example: Sunflower Oil | Example: 100% Sunflower seeds OR sunflower seeds, citric acid and vitamin E. | |
| | | |
| | | |
| | | |
| | | |
| | | |

Additional rows needed and supplementary list is attached. (Please sign and date supplemental list.)

The following questions apply to the ingredient itself, and if a compound ingredient, to ALL its sub-ingredients and/or inputs used to produce its sub-ingredients, except micro processing aids. These should also be fully disclosed in the table above. Please answer the following questions for a proprietary formulation as well.

| in the table above. Please answer the following questions for a proprietary formulation as well. | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|---------|
| 6. Does this ingredient contain any processing aids ² which are present at 0.5% or more? | □Yes | ⊠No |
| If yes, please name the processing aid(s)* below: | | |
| * For purposes of the Non-GMO Project Standard, fermentation microorganisms are not considered processing aid | ls. | |
| 7. Is this ingredient or its sub-ingredients made through a fermentation process (using a microorganism) | sm)? | |
| | ⊠Yes | □No |
| 7.1 If Yes, is the microorganism genetically modified?3 | □Yes | ⊠No |
| 7.1.1 If Yes, is this ingredient separated out from the fermentation medium*? (*The microorganism used for fermentation grow in specially designed growth medium which supplies required for the growth of the microorganism, such a medium is called the Fermentation Medium) | ⊠Yes the nutrie | |
| 8. Is this ingredient or any of its sub-ingredient a microorganism? | □Yes | ⊠No |
| 8.1 If Yes, is the microorganism genetically modified? ³ | \square Yes | □No |
| If you have answered Yes to question 8.1 please answer the following questions: | | |
| 8.2 Is the microorganism viable? ⁴ | □Yes | □No |
| If No, please explain how is microorganism are rendered non-viable (list processes used): | | |
| 9. Is this ingredient or any of its sub-ingredients an enzyme? | □Yes | ⊠No |
| Please list ingredient/sub-ingredient(s) and/or all inputs to which your response applies: | | |
| 9.1 If Yes, is the enzyme(s) derived from a genetically modified organism? ³ | □Yes | |
| If you have answered 'Yes' to question 9.1 please answer the following question. | | |
| 9.2. Is the enzyme still functional ⁵ in the finished enrolled product? | □Yes | |
| 97 IS THE ENTYTIE SHILLINGHODAL IN THE HUISHED ENTOILED DIODUCLY | 1 1165 | 1 11/10 |

If No, please explain how the enzyme is deactivated/denatured (i.e. briefly describe processes used to render the enzyme non-functional):

| (i.e. produc | ngredient or its sub ed with synthetical Yes, please list all ir | lly cre | ated | nucle | eic acid | l seque | ences | and/c | r gen | es)? | • | | | [| □Yes ∑ | | |
|--------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|--------|--------|-------------------------------|---------|---------|---------|---------|---------|---------|----------|---------|-------------|-------------------------|--------------|------------------------------------|
