

Aurochemicals Standard Ingredient Form

This form facilitates the verification process for enrolled participants. The Non-GMO Project (NGP) Standard requires FoodChain ID to assess all potential GMO (*) risk ingredients, including highly processed ingredients and sub-ingredients. Detailed information from suppliers is required and highly appreciated. Thank you for your cooperation.

Name of Ingredient: LAURIC ACID, Natural FEMA Number 2614	
Name of Ingredient Manufacturer: Aurochemicals	
1. Is this ingredient 95+% Certified Organic? □Yes □N	No ⊠ Organic Compliant
2. Has this ingredient been verified as a product through the Non-GMO Project Product Ver	ification Program?
	□Yes ⊠No
If you have answered YES to question 2, please answer questions 2.1, 2.2 and 2.3. When you questions, move to the end of this document and fill out the signature section. If you have at 2, please proceed to question 3. 2.1 Please provide the Certificate of Verification for the NGP verified product/ingredient w	nswered No to question
product/ingredient name on the certificate or listed in an addendum. 2.2 Does a third party receive/handle the material before received a client's facility/copack	ker? □Yes □No
2.3 Does the third party handle the NGP verified product in permeable* form? *Permeable form: handling of NGP verified product in unsealed form.	□Yes □ No
If you have answered question 2.3 yes, please provide SOP's for segregation and traceability handling location.	for the third-party
3. Is the ingredient or any of its sub-ingredient and/or the source crop/raw material of the ingredient genetically modified or derived using Biotechnology¹ methods?	ingredient/sub- □Yes ⊠No
4. Ingredient properties (check either box A or B, displayed below):	edient and does not g agents, etc.) or
\Box B. The ingredient contains multiple inputs ("compound"). Select this option if th more than one input.	e ingredient contains
5. In the table displayed below, list all of ingredient's raw materials, additives, incidental ad fermentation media/substrates, and any other inputs that are used in the ingredient's man	

The Natural Choice for Flavor and Fragrance Ingredients

Sub-Ingredient name	Identify all inputs used in manufacturing of sub-ingredient(s) or indicate that sub-ingredient is 100% raw material	Please check if the sub-ingredient is a processing aid ²
Example: Sunflower Oil	Example: 100% Sunflower seeds OR sunflower seeds, citric acid and vitamin E.	
Additional ro	I ws needed and supplementary list is attached. (Please sign and da	te supplemental list.)

The following questions apply to the ingredient itself, and if a compound ingredient, to ALL its sub-ingredients and/or inputs used to produce its sub-ingredients, except micro processing aids. These should also be fully disclosed in the table above. Please answer the following questions for a proprietary formulation as well.

in the table above. Please answer the following questions for a proprietary formulation as well.		
6. Does this ingredient contain any processing aids ² which are present at 0.5% or more?	□Yes	⊠No
If yes, please name the processing aid(s)* below:		
* For purposes of the Non-GMO Project Standard, fermentation microorganisms are not considered processing aid	ls.	
7. Is this ingredient or its sub-ingredients made through a fermentation process (using a microorganis	sm)?	
	□Yes	⊠No
7.1 If Yes, is the microorganism genetically modified?3	□Yes	□No
7.1.1 If Yes, is this ingredient separated out from the fermentation medium*? (*The microorganism used for fermentation grow in specially designed growth medium which supplies required for the growth of the microorganism, such a medium is called the Fermentation Medium)	□Yes the nutrie	
8. Is this ingredient or any of its sub-ingredient a microorganism?	□Yes	⊠No
8.1 If Yes, is the microorganism genetically modified? ³	\square Yes	□No
If you have answered Yes to question 8.1 please answer the following questions:		
8.2 Is the microorganism viable? ⁴	□Yes	□No
If No, please explain how is microorganism are rendered non-viable (list processes used):		
9. Is this ingredient or any of its sub-ingredients an enzyme?	□Yes	⊠No
Please list ingredient/sub-ingredient(s) and/or all inputs to which your response applies:		
9.1 If Yes, is the enzyme(s) derived from a genetically modified organism? ³	□Yes	
	□ 1E2	
If you have answered 'Yes' to question 9.1 please answer the following question.		
9.2 Is the enzyme still functional ⁵ in the finished enrolled product?	□Yes	\square Nc

If No, please explain how the enzyme is deactivated/denatured (i.e. briefly describe processes used to render the enzyme non-functional):

_		= :	used to produce them, a product of synt	hetic biology □Yes ⊠No
