

Aurochemicals Standard Ingredient Form

This form facilitates the verification process for enrolled participants. The Non-GMO Project (NGP) Standard requires FoodChain ID to assess all potential GMO (*) risk ingredients, including highly processed ingredients and sub-ingredients. Detailed information from suppliers is required and highly appreciated. Thank you for your cooperation.

Name of Ingredient: 2-ACETAL FURAN (2-FURYL METHYL KETONE), Natu	ra FEMA Number 3163
Name of Ingredient Manufacturer: Aurochemicals	
1. Is this ingredient 95+% Certified Organic?	\square Yes \square No \boxtimes Organic Compliant
2. Has this ingredient been verified as a product through the Non-GMO Project F	Product Verification Program?
	□Yes ⊠No
If you have answered YES to question 2, please answer questions 2.1, 2.2 and 2.3 questions, move to the end of this document and fill out the signature section. If 2, please proceed to question 3.	
2.1 Please provide the Certificate of Verification for the NGP verified product/in product/ingredient name on the certificate or listed in an addendum.	gredient with the
2.2 Does a third party receive/handle the material before received a client's fac	ility/copacker? □Yes □No
2.3 Does the third party handle the NGP verified product in permeable* form? *Permeable form: handling of NGP verified product in unseale If you have answered question 2.3 yes, please provide SOP's for segregation and	
handling location.	
3. Is the ingredient or any of its sub-ingredient and/or the source crop/raw matering ingredient genetically modified or derived using Biotechnology¹ methods?	erial of the ingredient/sub- □Yes ⊠No
4. Ingredient properties (check either box A or B, displayed below):	single ingredient and does not anti-caking agents, etc.) or
\Box B. The ingredient contains multiple inputs ("compound"). Select this more than one input.	option if the ingredient contains
5. In the table displayed below, list all of ingredient's raw materials, additives, in fermentation media/substrates, and any other inputs that are used in the ingred	

The Natural Choice for Flavor and Fragrance Ingredients

Sub-Ingredient name	Identify all inputs used in manufacturing of sub-ingredient(s) or indicate that sub-ingredient is 100% raw material	Please check if the sub-ingredient is a processing aid ²
Example: Sunflower Oil	Example: 100% Sunflower seeds OR sunflower seeds, citric acid and vitamin E.	

Additional rows needed and supplementary list is attached. (Please sign and date supplemental list.)

The following questions apply to the ingredient itself, and if a compound ingredient, to ALL its sub-ingredients

and/or inputs used to produce its sub-ingredients, except micro processing aids. These should also be in the table above. Please answer the following questions for a proprietary formulation as well.	fully dis	closea
6. Does this ingredient contain any processing aids ² which are present at 0.5% or more?	□Yes	⊠No
If yes, please name the processing aid(s)* below:		
* For purposes of the Non-GMO Project Standard, fermentation microorganisms are not considered processing ai	ds.	
7. Is this ingredient or its sub-ingredients made through a fermentation process (using a microorgan	ism)? □Yes	⊠No
7.1 If Yes, is the microorganism genetically modified?3	□Yes	□No
7.1.1 If Yes, is this ingredient separated out from the fermentation medium*? (*The microorganism used for fermentation grow in specially designed growth medium which supplies required for the growth of the microorganism, such a medium is called the Fermentation Medium)	□Yes the nutrie	_
8. Is this ingredient or any of its sub-ingredient a microorganism?	□Yes	⊠No
8.1 If Yes, is the microorganism genetically modified? ³	□Yes	□No
If you have answered Yes to question 8.1 please answer the following questions:		
8.2 Is the microorganism viable? ⁴	□Yes	□No
If No, please explain how is microorganism are rendered non-viable (list processes used):		
9. Is this ingredient or any of its sub-ingredients an enzyme?	□Yes	⊠No
Please list ingredient/sub-ingredient(s) and/or all inputs to which your response applies:		
9.1 If Yes, is the enzyme(s) derived from a genetically modified organism? ³	□Yes	
If you have answered 'Yes' to question 9.1 please answer the following question.		
9.2 Is the enzyme still functional ⁵ in the finished enrolled product?	□Yes	□No

If No, please explain how the enzyme is deactivated/denatured (i.e. briefly describe processes used to render the enzyme non-functional):

10. Is this ingredient or its sub-ingredients, including inputs used to produce them, a product of sy (i.e. produced with synthetically created nucleic acid sequences and/or genes)?	ynthetic biology □Yes ⊠I
If Yes, please list all ingredient/sub-ingredient(s) and/or all inputs to which your response	e applies:
11. Is this ingredient or its sub-ingredients, including inputs used to produce them, derived from a (e.g. dairy, meat, eggs, bee products, wool/hides, etc.)?	animal sources □ Yes ⊠
	_1051
If Yes: Answer the following for each animal-derived input (ingredient, sub-ingredient or any in processing):	puts used in
 Is rBGH, rBST (recombinant bovine growth hormone or recombinant bovine somatotropin the livestock? 	n) administered \Box Yes \Box
• Are Animal husbandry practices involving cloned spermatozoa (cloned animals or their prog	geny) used?
	□Yes □N
• Are Bee products, viz. honey, bee pollen, etc., used?	□Yes □N
If Yes, for additional information about requirements for bee products that contribute 0.5% or more to a finished enro (discounting salt and water), request Annex III of this form.	olled NGP product
12. Is the ingredient or any sub-ingredients derived from alfalfa, canola, corn, cotton, papaya, pot beets, yellow summer squash, or zucchini? (Disclosure of this information is required.)	tato, soy, sugar □Yes ⊠
If you selected Yes to questions 7, 8, 9, 10, 11 or 12, complete the following table for applicable in	ngredient, sub-

ingredients and/or inputs used to produce the sub-ingredient:

Ingredient name, Sub- Ingredient name or Input name used to	Percentage of the finished ingredient (discounting salt and	Certified Organic or Third-Party IP Certified? If Yes provide certificate with addendum/scope	Please check any of the following for which you answered 'Yes'			Crop source and countries/regions of origin												
produce Sub- Ingredient	water) if known		Q7	Q8	Q9	Q10	Q11	Alfalfa	Canola	Corn	Cotton	Рарауа	Potato	Aos	Sugar Beets	Yellow Summer Squash	Zucchini	Countries and/or regions of origin
