

Aurochemicals Standard Ingredient Form

This form facilitates the verification process for enrolled participants. The Non-GMO Project (NGP) Standard requires FoodChain ID to assess all potential GMO (*) risk ingredients, including highly processed ingredients and sub-ingredients. Detailed information from suppliers is required and highly appreciated. Thank you for your cooperation.

Name of Ingredient:	BENZALDEHYDE, Natural (Import Domestic)	FEMA Number 2127	7
Name of Ingredient N	Manufacturer: Aurochemicals		
1. Is this ingredient 95+	% Certified Organic?	□Yes □No ⊠ Orga	inic Compliant
2. Has this ingredient be	een verified as a product through the Non-GMO Proj	ect Product Verification P	rogram?
		I	□Yes ⊠No
	ES to question 2, please answer questions 2.1, 2.2 and end of this document and fill out the signature section section 3.	•	•
· ·	Certificate of Verification for the NGP verified product name on the certificate or listed in an addendum.	ct/ingredient with the	
	receive/handle the material before received a client's	s facility/copacker?	□Yes □No
	y handle the NGP verified product in permeable* forr meable form: handling of NGP verified product in uns		□Yes □ No
If you have answered que handling location.	uestion 2.3 yes, please provide SOP's for segregation	and traceability for the th	nird-party
	any of its sub-ingredient and/or the source crop/raw r modified or derived using Biotechnology ¹ methods?	material of the ingredient	/sub- □Yes ⊠No

The Natural Choice for Flavor and Fragrance Ingredients

Sub-Ingredient name	Identify all inputs used in manufacturing of sub-ingredient(s) or indicate that sub-ingredient is 100% raw material	Please check if the sub-ingredient is a processing aid ²
Example: Sunflower Oil	Example: 100% Sunflower seeds OR sunflower seeds, citric acid and vitamin E.	
Additional r	 ows needed and supplementary list is attached. (Please sign and d	ate supplemental list.)

The following questions apply to the ingredient itself, and if a compound ingredient, to ALL its sub-ingredients

and/or inputs used to produce its sub-ingredients, except micro processing aids. These should also be in the table above. Please answer the following questions for a proprietary formulation as well.	fully disc	closea							
6. Does this ingredient contain any processing aids ² which are present at 0.5% or more?	□Yes	⊠Nc							
If yes, please name the processing aid(s)* below:									
* For purposes of the Non-GMO Project Standard, fermentation microorganisms are not considered processing aid	 ds.								
7. Is this ingredient or its sub-ingredients made through a fermentation process (using a microorgani	sm)? ⊠Yes	□No							
7.1 If Yes, is the microorganism genetically modified?3	□Yes	⊠No							
7.1.1 If Yes, is this ingredient separated out from the fermentation medium*? (*The microorganism used for fermentation grow in specially designed growth medium which supplies required for the growth of the microorganism, such a medium is called the Fermentation Medium)	⊠Yes the nutrie	_							
8. Is this ingredient or any of its sub-ingredient a microorganism?	□Yes	⊠No							
8.1 If Yes, is the microorganism genetically modified? ³	□Yes	□No							
If you have answered Yes to question 8.1 please answer the following questions:									
8.2 Is the microorganism viable? ⁴	□Yes	□No							
If No, please explain how is microorganism are rendered non-viable (list processes used):									
9. Is this ingredient or any of its sub-ingredients an enzyme?	□Yes	⊠No							
Please list ingredient/sub-ingredient(s) and/or all inputs to which your response applies:									
9.1 If Yes, is the enzyme(s) derived from a genetically modified organism? ³	□Yes								
If you have answered 'Yes' to question 9.1 please answer the following question.									
f you have answered 'Yes' to question 9.1 please answer the following question. 9.2 Is the enzyme still functional ⁵ in the finished enrolled product?									

If No, please explain how the enzyme is deactivated/denatured (i.e. briefly describe processes used to render the enzyme non-functional):

(i.e. produc	0. Is this ingredient or its sub-ingredients, including inputs used to produce them, a product of synthetic because in the produced with synthetically created nucleic acid sequences and/or genes)?										□Yes ∑
