

## **Aurochemicals Standard Ingredient Form**

This form facilitates the verification process for enrolled participants. The Non-GMO Project (NGP) Standard requires FoodChain ID to assess all potential GMO (\*) risk ingredients, including highly processed ingredients and sub-ingredients. Detailed information from suppliers is required and highly appreciated. Thank you for your cooperation.

Name of Ingredient: HELIOTROPINE (PIPERONAL), Natural (Export)	FEMA Number 2	2911
Name of Ingredient Manufacturer: Aurochemicals		
1. Is this ingredient 95+% Certified Organic?	□Yes □No ⊠ Org	ganic Compliant
2. Has this ingredient been verified as a product through the Non-GMO Projec	t Product Verification	Program?
		□Yes ⊠No
If you have answered YES to question 2, please answer questions 2.1, 2.2 and 2 questions, move to the end of this document and fill out the signature section. 2, please proceed to question 3.	•	•
2.1 Please provide the Certificate of Verification for the NGP verified product, product/ingredient name on the certificate or listed in an addendum.	/ingredient with the	
<ul><li>2.2 Does a third party receive/handle the material before received a client's f</li></ul>	acility/copacker?	□Yes □No
2.3 Does the third party handle the NGP verified product in permeable* form?  *Permeable form: handling of NGP verified product in unsea		□Yes □ No
If you have answered question 2.3 yes, please provide SOP's for segregation as handling location.	nd traceability for the	third-party
3. Is the ingredient or any of its sub-ingredient and/or the source crop/raw maingredient genetically modified or derived using Biotechnology¹ methods?	aterial of the ingredier	nt/sub- □Yes ⊠No
4. Ingredient properties (check either box A or B, displayed below):	0% single ingredient ar rs, anti-caking agents,	nd does not etc.) or
$\Box$ B. The ingredient contains multiple inputs ("compound"). Select th more than one input.	is option if the ingredi	ent contains
5. In the table displayed below, list all of ingredient's raw materials, additives, fermentation media/substrates, and any other inputs that are used in the ingr		

The Natural Choice for Flavor and Fragrance Ingredients

Sub-Ingredient name	Identify all inputs used in manufacturing of sub-ingredient(s) or indicate that sub-ingredient is 100% raw material	Please check if the sub-ingredient is a processing aid <sup>2</sup>
Example: Sunflower Oil	Example: 100% Sunflower seeds OR sunflower seeds, citric acid and vitamin E.	
Additional r	 ows needed and supplementary list is attached. (Please sign and d	ate supplemental list.)

The following questions apply to the ingredient itself, and if a compound ingredient, to ALL its sub-ingredients

and/or inputs used to produce its sub-ingredients, except micro processing aids. These should also be in the table above. Please answer the following questions for a proprietary formulation as well.	fully disc	closea				
6. Does this ingredient contain any processing aids <sup>2</sup> which are present at 0.5% or more?	□Yes	⊠Nc				
If yes, please name the processing aid(s)* below:						
* For purposes of the Non-GMO Project Standard, fermentation microorganisms are not considered processing aid	 ds.					
7. Is this ingredient or its sub-ingredients made through a fermentation process (using a microorgani	sm)? ⊠Yes	□No				
7.1 If Yes, is the microorganism genetically modified?3	□Yes	⊠No				
7.1.1 If Yes, is this ingredient separated out from the fermentation medium*? (*The microorganism used for fermentation grow in specially designed growth medium which supplies required for the growth of the microorganism, such a medium is called the Fermentation Medium)	⊠Yes the nutrie	_				
8. Is this ingredient or any of its sub-ingredient a microorganism?	□Yes	⊠No				
8.1 If Yes, is the microorganism genetically modified? <sup>3</sup>	□Yes	□No				
If you have answered Yes to question 8.1 please answer the following questions:						
8.2 Is the microorganism viable? <sup>4</sup>	□Yes	□No				
If No, please explain how is microorganism are rendered non-viable (list processes used):						
9. Is this ingredient or any of its sub-ingredients an enzyme?	□Yes	⊠No				
Please list ingredient/sub-ingredient(s) and/or all inputs to which your response applies:						
9.1 If Yes, is the enzyme(s) derived from a genetically modified organism? <sup>3</sup>	□Yes					
If you have answered 'Yes' to question 9.1 please answer the following question.						

If No, please explain how the enzyme is deactivated/denatured (i.e. briefly describe processes used to render the enzyme non-functional):

(i.e. produc	10. Is this ingredient or its sub-ingredients, including inputs used to produce them, a product of synthetic line. produced with synthetically created nucleic acid sequences and/or genes)?										□Yes ∑
