Section 4:	FIRST AID MEASURES	
Common Name: Synonyms: CAS # Molecular Formula		Cucumber alcohol/Ethyl Acetate Cucumber alcohol; Ethyl Ester of Acetic Acid 28069-72-9/141-78-6 C ₉ H ₁₆ O
Chemical Name		2-trans,cis-6-Nonadienol 1% / Ethyl Acetate 99%

FIRST AID MEASURES Inhalation If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist Skin Contact Remove contaminated clothing. Wash skin with cool water then with mild soap and warm water for several minutes. Get medical attention if irritation develops or persists Eye Contact Remove contact lenses if present and easy to do. Promptly wash eyes with plenty of water, lifting eye lids as you rinse. Get medical attention if irritation develops or persists. Ingestion Call a physician or poison control center immediately. If swallowed, rinse mouth with water, (only if person is conscious). Do not induce vomiting. If vomiting occurs, the head should be kept low so the stomach vomit does not enter the lungs. Symptoms of Exposure Irritation of eyes and mucous membranes. Vapors have a narcotic effect and may cause headache, fatigue, dizziness and nausea. Clothing: Remove contaminated clothing and wash before re-use

General Information	Make sure the attending physician is shown the label of the product as well as the Safety Data Sheet				
Section 5: FIREFIGHTING MEASUR	RES				
Extinguishing Media	Water spray, fog, Co2, Dry chemical or alcohol resistant foam Do not use a solid water stream as it may scatter and spread the fire				
Special Firefighting Procedures:	Do not stay in danger zone without self contained breathing apparatus Prevent fire-fighting water from entering surface or ground water Use water spray to cool unopened containers				
Special Risks	 Highly flammable. Vapors heavier than air. Vapors may travel considerable distance to source of ignition and flash back. Container explosion may occur under fire conditions. Forms explosive mixtures in air Development of hazardous combustion gases or vapors possible in the event of fire – ethanol, acetic acid 				
Section 6: ACCIDENTAL RELEASE	E MEASURES				
Person-related precautionary measures	Do not inhale vapors, Ensure supply of fresh air in enclosed rooms Wear respirator, safety glasses, and chemical resistant gloves. Do not touch damaged containers or spilled material unless wearing protective equipment				
Environmental-protected measures	Do not allow to enter drains, or sewage system, avoid release into the environment				
Procedures for cleaning / absorption	With absorbent, sweep up and discard in container, set out for disposal.				
Ventilate area	After sweep up, wash area and ventilate area well				
Section 7: HANDLING AND STORA	AGE				
Handling:	Avoid contact with skin, eyes and clothing. Do not handle or store near open flame, heat or other sources of ignition. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Avoid breathing vapor. Avoid prolonged exposure. Wash hands thoroughly after handling				

Storage:

Open slowly in order to control possible pressure release. Store tightly closed, in cool, dry well ventilated place – no smoking. Protect from moisture.
