

Product Specification

The Natural Choice for Flavor
and Fragrance Ingredients

Product:	Camphene, Natural
FEMA No:	2229
CAS No:	79-92-5
CFR No:	172.510
Chemical name or Synonyms:	3,3-Dimethyl-2-methylenenorcamphane
Empirical Formula:	C₁₀H₁₆
Declaration in USA:	Natural
EEC:	N/A
Appearance:	Colorless crystalline mass
Odor:	Camphoraceous-oily, terpene
Melting Point:	~40°C
Boiling Point:	~159°C
Flash Point:	35°C
Purity (GLC):	80% Min
Solubility:	Insoluble or practically insoluble in water Soluble in alcohol; miscible in most fixed oils
Storage and Shelf Life:	Store in fully sealed containers, in a cool, dry place protected from ignition sources. 24 Months shelf life

Revision #2 8/8/2022
