

Aurochemicals Standard Ingredient Form

This form facilitates the verification process for enrolled participants. The Non-GMO Project (NGP) Standard requires FoodChain ID to assess all potential GMO (*) risk ingredients, including highly processed ingredients and sub-ingredients. Detailed information from suppliers is required and highly appreciated. Thank you for your cooperation.

Name of Ingredient: CIS -3 HEXENYL ISOBUTYRATE, N	ATURAL
Name of Ingredient Manufacturer:Auro	ochemicals
1. Is this ingredient 95+% Certified Organic?	☐Yes ☐No ☒ Organic Compliant
2. Has this ingredient been verified as a product through the	Non-GMO Project Product Verification Program?
	□Yes ⊠No
If you have answered YES to question 2, please answer quest questions, move to the end of this document and fill out the s 2, please proceed to question 3.	signature section. If you have answered No to question
2.1 Please provide the Certificate of Verification for the NGF product/ingredient name on the certificate or listed in a	
2.2 Does a third party receive/handle the material before re	
2.3 Does the third party handle the NGP verified product in party handle form: handling of NGP verified	
If you have answered question 2.3 yes, please provide SOP's handling location.	or segregation and traceability for the third-party
3. Is the ingredient or any of its sub-ingredient and/or the so ingredient genetically modified or derived using Biotechnological process.	
4. Ingredient properties (check either box A or B, displayed box A. The ingredient consists of a single input ("mon (e.g. flax seed): Select this option of contain (or is used to process) any additives (i.e. pre processing aids (enzymes, solvents, extractants, mixing lf you checked box A, please skip question 5.	o"). Please identify the single raw material source only if this is a 100% single ingredient and does not eservatives, carriers, anti-caking agents, etc.) or
\Box B. The ingredient contains multiple inputs ("component than one input.	oound"). Select this option if the ingredient contains
5. In the table displayed below, list all of ingredient's raw ma fermentation media/substrates, and any other inputs that ar	

and Fragrance Ingredients Sub-Ingredient Identify all inputs used in manufacturing of sub-ingredient(s) or indicate that Please check if the sub-ingredient sub-ingredient is 100% raw material is a processing aid² name Example: Sunflower Example: 100% Sunflower seeds OR sunflower seeds, citric acid and vitamin E.

Additional rows needed and supplementary list is attached. (Please sign and date supplemental list.)

The following questions apply to the ingredient itself, and if a compound ingredient, to ALL its sub-ingredients d/or inputs used to produce its sub-ingredients, except micro processing aids. These should also be fully disclosed

in the table above. Please answer the following questions for a proprietary formulation as well.	fully disc	closed
6. Does this ingredient contain any processing aids ² which are present at 0.5% or more?	□Yes	⊠No
If yes, please name the processing aid(s)* below:		
* For purposes of the Non-GMO Project Standard, fermentation microorganisms are not considered processing aid	ds.	
7. Is this ingredient or its sub-ingredients made through a fermentation process (using a microorganic	sm)? ⊠Yes	□No
7.1 If Yes, is the microorganism genetically modified?3	□Yes	⊠No
7.1.1 If Yes, is this ingredient separated out from the fermentation medium*? (*The microorganism used for fermentation grow in specially designed growth medium which supplies required for the growth of the microorganism, such a medium is called the Fermentation Medium)	⊠Yes the nutrie	_
8. Is this ingredient or any of its sub-ingredient a microorganism?	□Yes	⊠No
8.1 If Yes, is the microorganism genetically modified? ³	□Yes	□No
If you have answered Yes to question 8.1 please answer the following questions:		
8.2 Is the microorganism viable? ⁴	□Yes	□No
If No, please explain how is microorganism are rendered non-viable (list processes used):		
9. Is this ingredient or any of its sub-ingredients an enzyme?	□Yes	⊠No
Please list ingredient/sub-ingredient(s) and/or all inputs to which your response applies:		
9.1 If Yes, is the enzyme(s) derived from a genetically modified organism? ³	□Yes	 □No
If you have answered 'Yes' to question 9.1 please answer the following question.		
9.2. Is the enzyme still functional ⁵ in the finished enrolled product?	□Yes	□No

If No, please explain how the enzyme is deactivated/denatured (i.e. briefly describe processes used to render the enzyme non-functional):

10. Is this ingredient or its sub-ingredients, including inputs used to produce them, a product of	synthetic biology
(i.e. produced with synthetically created nucleic acid sequences and/or genes)?	□Yes ⊠No
If Yes, please list all ingredient/sub-ingredient(s) and/or all inputs to which your respon	nse applies:
11. Is this ingredient or its sub-ingredients, including inputs used to produce them, derived from	
(e.g. dairy, meat, eggs, bee products, wool/hides, etc.)?	□Yes ⊠No
If Yes:	
Answer the following for each animal-derived input (ingredient, sub-ingredient or any i processing):	inputs used in
Is rBGH, rBST (recombinant bovine growth hormone or recombinant bovine somatotrop	·
the livestock?	□Yes □No
 Are Animal husbandry practices involving cloned spermatozoa (cloned animals or their presented in the specific presented in the specifi	ogeny) used?
	□Yes □No
• Are Bee products, viz. honey, bee pollen, etc., used?	□Yes □No
If Yes, for additional information about requirements for bee products that contribute 0.5% or more to a finished en (discounting salt and water), request Annex III of this form.	nrolled NGP product
12. Is the ingredient or any sub-ingredients derived from alfalfa, canola, corn, cotton, papaya, pobeets, yellow summer squash, or zucchini? (Disclosure of this information is required.)	otato, soy, sugar □Yes ⊠No
If you selected Yes to questions 7, 8, 9, 10, 11 or 12, complete the following table for applicable in	ingredient, sub-

ingredients and/or inputs used to produce the sub-ingredient:

Ingredient name, Sub- Ingredient name or Input name used to	Percentage of the finished ingredient (discounting salt and	Certified Organic or Third-Party IP Certified? If Yes provide certificate with addendum/scope	Please check any of the following for which you answered 'Yes'				following for which you answered 'Yes' Crop source and countries/regions of origin
