	Inhalation	Provide fresh air; keep at rest and at a comfortable position to breathe. Consult a
		physician.
	Contact with skin:	Remove contaminated clothing. Rinse skin with cool water then wash with mild soap an
		warm water. Consult a physician.
	Contact with eyes:	Rinse thoroughly with plenty of water for at least 15 minutes as a precaution.
	Ingestion	DO NOT induce vomiting. Never give anything by mouth to an unconscious person.
		Rinse mouth with water. Consult a physician.
	Clothing contamination:	Remove contaminated clothing and wash before reuse.

6.4	Specific end use(s)	Apart from the uses mentioned in section 1.2, no other specific uses are stipulated.			
Sect	Section 7: HANDLING AND STORAGE				
7.1	Precautions for safe handling	Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Keep away from sources of ignition-No smoking.			
7.2	Conditions for Safe storage	Keep container tightly closed in a dry, cool and well-ventilated place. Containers which have been opened must be carefully resealed and kept upright to prevent leakage. Air Sensitive			
7.3	Specific End use(s)	Flavorings			
Sect	tion 8: EXPOSURE CONTROLS/P	ERSONAL PROTECTION			
8.1					
8.2	Exposure Controls Appropriate Engineering Controls	Handle in accordance with good industrial hygiene and safety practices. Wash hands before breaks and at the end of the workday.			
	Personal protective equipment	These recommendations are advisory only and must be evaluated by an industrial hygienist and safety officer familiar with the specific situations of anticipated use by our customers. They should not be construed as offering an approval or any specific use scenario.			
	Eye/face protection	Safety glasses with side shields conforming to EN 166. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).			
	Skin protection	Wear chemically resistant rubber gloves. Use proper glove removal techniques (without touching gloves outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use. Wash and dry hands.			
Body protection		Complete suit protecting against chemicals should be selected specifically for the work place, depending on concentration and quantity of the hazardous substances handled. The resistance of the protective clothing to chemicals should be ascertained with the respective supplier			
	Respiratory protection	Where risk assessment shows air-purifying respirators are appropriate, use a full face respirator with multi-purpose combination (U) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full faced supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (U) or CEN (EU).			
	Control of environmental exposure	Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.
