

Aurochemicals Standard Ingredient Form

This form facilitates the verification process for enrolled participants. The Non-GMO Project (NGP) Standard requires FoodChain ID to assess all potential GMO (*) risk ingredients, including highly processed ingredients and sub-ingredients. Detailed information from suppliers is required and highly appreciated. Thank you for your cooperation.

Name of Ingredient: Ambroxide, Natural FEMA Number N/A	
Name of Ingredient Manufacturer: Aurochemicals	
1. Is this ingredient 95+% Certified Organic? ☐Yes ☐No ☒ Organic C	Compliant
2. Has this ingredient been verified as a product through the Non-GMO Project Product Verification Progra	am?
□Ye	es ⊠No
If you have answered YES to question 2, please answer questions 2.1, 2.2 and 2.3. When you have complet questions, move to the end of this document and fill out the signature section. If you have answered No to 2, please proceed to question 3. 2.1 Please provide the Certificate of Verification for the NGP verified product/ingredient with the	
product/ingredient name on the certificate or listed in an addendum. 2.2 Does a third party receive/handle the material before received a client's facility/copacker?	es □No
2.3 Does the third party handle the NGP verified product in permeable* form? *Permeable form: handling of NGP verified product in unsealed form. If you have answered question 2.3 yes, please provide SOP's for segregation and traceability for the third-phandling location.	'es □ No party
3. Is the ingredient or any of its sub-ingredient and/or the source crop/raw material of the ingredient/sub ingredient genetically modified or derived using Biotechnology¹ methods?)- Yes ⊠No
 4. Ingredient properties (check either box A or B, displayed below): 	es not or ess.
more than one input.	Jiilaiiis
5. In the table displayed below, list all of ingredient's raw materials, additives, incidental additives, and fermentation media/substrates, and any other inputs that are used in the ingredient's manufacturing production	cess.

The Natural Choice for Flavor and Fragrance Ingredients

□Yes □No

□Yes □No

	Identify all inputs used in manufacturing of sub-ingredient(s) or indicate that sub-ingredient is 100% raw material	Please check if the sub-ingredient is a processing aid ²
Example: Sunflower Oil	Example: 100% Sunflower seeds OR sunflower seeds, citric acid and vitamin E.	
Additional ro	ws needed and supplementary list is attached. (Please sign and da	te supplemental list.)
and/or inputs used	tions apply to the ingredient itself, and if a compound ingredient, to to produce its sub-ingredients, except micro processing aids. These Please answer the following questions for a proprietary formulatio	should also be fully disclosed
5. Does this ingredi	ent contain any processing aids ² which are present at 0.5% or mor	re? □Yes ⊠No
If yes, ple	ase name the processing aid(s)* below:	
* For purpo	ses of the Non-GMO Project Standard, fermentation microorganisms are not consid	dered processing aids.

9.1 If Yes, is the enzyme(s) derived from a genetically modified organism?³

If you have answered 'Yes' to question 9.1 please answer the following question.

9.2 Is the enzyme still functional⁵ in the finished enrolled product?

If No, please explain how the enzyme is deactivated/denatured (i.e. briefly describe processes used to render the enzyme non-functional):

	
10. Is this ingredient or its sub-ingredients, including inputs used to produce them, a product of syn (i.e. produced with synthetically created nucleic acid sequences and/or genes)?	thetic biology □Yes ⊠No
(i.e. produced with synthetically created flucieic acid sequences and/or genes):	□ res ⊠ NO
If Yes, please list all ingredient/sub-ingredient(s) and/or all inputs to which your response a	applies:
11. Is this ingredient or its sub-ingredients, including inputs used to produce them, derived from an (e.g. dairy, meat, eggs, bee products, wool/hides, etc.)?	imal sources □Yes ⊠No
(e.g. dairy, meat, eggs, bee products, wool/mdes, etc.):	Lifes MNO
If Yes:	
Answer the following for each animal-derived input (ingredient, sub-ingredient or any inpuprocessing):	uts used in
• Is rBGH, rBST (recombinant bovine growth hormone or recombinant bovine somatotropin)	administered to
the livestock?	□Yes □No
 Are Animal husbandry practices involving cloned spermatozoa (cloned animals or their proge 	ny) used?
	□Yes □No
• Are Bee products, viz. honey, bee pollen, etc., used?	□Yes □No
If Yes, for additional information about requirements for bee products that contribute 0.5% or more to a finished enroll (discounting salt and water), request Annex III of this form.	ed NGP product
12. Is the ingredient or any sub-ingredients derived from alfalfa, canola, corn, cotton, papaya, pota	to, soy, sugar
beets, yellow summer squash, or zucchini? (Disclosure of this information is required.)	□Yes ⊠No
If you selected Yes to questions 7, 8, 9, 10, 11 or 12, complete the following table for applicable ingr	redient, sub-

ingredients and/or inputs used to produce the sub-ingredient:

Ingredient name, Sub- Ingredient name or Input name used to	Percentage of the finished ingredient (discounting salt and	Certified Organic or Third-Party IP Certified? If Yes provide certificate with addendum/scope	follo		for wh	y of the		Crop		his sec	count	ries/re	egions	of ori	gin
