FLAMMABILITY	1
REACTIVITY	0

Section 1: PRODUCT AND COMPANY IDENTIFICATION

1.1	Product identifiers Product Name Product Number	Phenyl Acetic Acid, Natural (Manufacturing) 0287800
	CAS-No.	103-82-2
1.2 1.3	Product Recommended Use Preparation Information	Flavorings
	Company	Aurochemicals 7 Nicoll Street Washingtonville, NY 10992
	Telephone Fax	845-496-6248
1.4	Emergency Telephone Number	1-800-535-5053 International - 1-352-323-3500 collect
Sect	tion 2: HAZARD(s) IDENTIFICATI	ON
2.1	Classification of substance or mixture	
	Skin irritation (Cat Eye irritation (Cat	al (Category 5), H303 egory 2),H315
2.2	GHS Label Elements, Including precaution	onary statements
	Pictogram	

Statement(s)

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.

2.3 HNOC (Hazards not otherwise classified or not covered by GHS - Stench

Section 3: COMPOSITION / INFORMATION ON INGREDIENTS

1 Substances			
Synonyms		Benzeneacetic acid Alpha-Tolylic acid PAA	
Formula		C8H8O2	
Molecular W	eight	136.15 g/mol	
CAS-No		103-82-2	
EC-No.		203-148-6	
Hazardous (Components		
Component		Classification	Concentration
Phenylacetic	acid	Acute toxicity, Oral (Category 5), H303 Skin irritation (Category 2),H315 Eye irritation (Category 2A),H319 Specific target organ toxicity-single exposure Respiratory System, H335	<=100% (Category 3),

4.1 Description of first aid measures

4.1	Description of first and measures	
	General advice	Consult physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.
	Inhalation	Provide fresh air; keep at rest and at a comfortable position to breathe. Consult a physician.
	Contact with skin:	Remove contaminated clothing. Rinse skin with cool water then wash with mild soap and warm water and contact a physician.
	Contact with eyes:	Rinse thoroughly with plenty of water for at least 15 as a precaution and consult a physician.
	Ingestion	DO NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.
	Clothing contamination:	Remove contaminated clothing and wash before reuse.
4.2	Most important symptoms and effects both acute and delayed	See section 2.2 and or section 11
4.3	Indication of any immediate medical	No data available

attention and special treatment needed.

Sec	ion 5: FIREFIGHTING MEASURE	S
5.1	Extinguishing Media Suitable Extinguishing Media	Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide
5.2	Special hazards arising from the substance or mixture	Carbon oxides
5.3	Advice for fire fighters	Wear self contained breathing apparatus for firefighting if necessary. Emits toxic fumes under fire conditions
5.4	Further information	Use water spray to cool unopened containers
Sec	ion 6: ACCIDENTIAL RELEASE N	MEASURES
6.1	Personal precautions, protective equipment and emergency procedures	Use personal protective equipment. Avoid dust formation. Avoid breathing dust. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe area.
6.2	Environment precautions	Prevent further spillage if safe to do so. Do not allow to enter drains or sewage system.
6.3	Methods and materials for containment and clean up	Sweep up with broom and shovel. Place in a suitable, closed container for disposal.
6.4	Specific end use(s)	Apart from the uses mentioned in section 1.2, no other specific uses are stipulated.
Section 7: HANDLING AND STORAGE		
7.1	Precautions for safe handling	Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection.
7.2	Conditions for Safe storage	Keep container tightly closed in a dry and well-ventilated place.
7.3	Specific End use(s)	Flavorings
Sec	ion 8: EXPOSURE CONTROLS/P	ERSONAL PROTECTION
8.1	Control parameters	
	Components with workplace control par Contains no substances with occupational e	
8.2	Exposure Controls Appropriate Engineering Controls	Avoid contact with skin, eyes and clothing. Handle in accordance with good industrial hygiene and safety practices.

	Wash hands immediately after handling the product; before breaks and at the end of the day.
Personal protective equipment	These recommendations are advisory only and must be evaluated by an industrial hygienist and safety officer familiar with the specific situation of anticipated use by our customers. They should not be construed as offering an approval for any specific use scenario.
Eye/face protection	Wear appropriate safety glasses with side shields. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).
Skin protection	Wear chemically resistant, Nitrile rubber gloves, 0.11 mm, when handling this product. Use proper glove removal techniques (without touching gloves outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use. Wash and dry hands.
Body protection	Impervious clothing protecting against chemicals, should be selected specifically for the work place, depending on concentration and quantity of the hazardous substances handled. The resistance of the protective clothing to chemicals should be ascertained with the respective supplier.
Respiratory protection	For nuisance exposures use type P95 (US) or type P1 (EU EN 143) particle respirator. For higher level protection use OV/AG/P99 (US) or type ABEK-P2 (EU EN) respirator cartridges. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).
Control of environmental exposure	Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

PHYSICAL AND CHEMICAL PROPERTIES Section 9:

9.1 Information on basic physical and chemical properties

а	Appearance	Crystalline-Solid White-Beige
b	Odor	Disagreeable in concentrated solution –Stench Sweet, animal, honey like odor in diluted solution
С	Odor Threshold	No data available
d	pН	No data available
е	Melting Point /Freezing Point	Melting point: 76-78°C
f	Boiling Point	265.5°C
g	Flash Point	>100°C closed cup
h	Evaporation Rate	No data available

	i	Flammability (Solid, Gas)	No data available
	j	Upper/lower Flammability Limit	No data available
	k	Vapor pressure	1 hPa at 97∘C
	Ι	Vapor density	No data available
	m	Relative density at 25°C	1.081
	n	Solubility	Soluble in oil and ethanol at room temperature Slightly soluble in water
	0	Partition coefficient: n-octanol/water	log Pow: 1.37-1.43
	р	Auto-ignition Temp.	No data available
	q	Decomposition Temp,	No data available
	r	Viscosity	No data available
	s	Explosive properties	No data available
	t	Oxidizing properties	No data available
9.2	Oth	ner Safety Information	No data available

Section 10: STABILITY AND REACTIVITY

10.1	Reactivity	No data available
10.2	Chemical Stability	Stable under recommended storage conditions
10.3	Possibility of Hazardous reactions	No data available
10.4	Conditions to avoid	No data available
10.5	Incompatible materials	Strong oxidizing agents, Strong bases, Strong reducing agents
10.6	Hazardous decomposition products	Formed under fire conditions – Carbon oxides
10.7	Further Information	No data available

Section 11: TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Acute Toxicity LD50-Oral -Rat		2,250 mg/kg
LC50-Inhalation		No data available
LD50-Dermal –F LD-50 Intraperito LD-50 Intraperito	oneal –Rat	>5,000 mg/kg 1,600 mg/kg 2,270 mg/kg

identified as probable, possible or confirmed human carcinogen by IARC. ACGIH No component of this product, present at levels greater than or equal to 0.19 is identified as a carcinogen or potential carcinogen by ACGIH. NTP No component of this product, present at levels greater than or equal to 0.19 is identified as a known or anticipated carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.19 is identified as a carcinogen or potential carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.19 is identified as a carcinogen or potential carcinogen by OSHA. Reproductive toxicity No data available Teratogenicity Developmental Toxicity – Rat-Oral Effects on embryo or Fetus: Fetotoxicity (except death, e.g., stunted fetus). Specific target organ toxicity-single exposure (GHS) Specific target organ toxicity-repeated exposures (GHS) Aspiration Hazards No data available Signs and Symptoms of Exposure Nausea, Dizziness, Headache To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated Synergistic effect No data available RTECS: AJ2430000			
Serious eye damage/eye irritation Rabbit: Moderate eye irritation – 24 h (Draize Test) Respiratory or skin sensitization No data available Germ Cell mutagenicity No data available Carcinogenicity IARC No component of this product, present levels greater than or equal to 0.1%, identified as probable, possible or confirmed human carcinogen by IARC. ACGIH No component of this product, present at levels greater than or equal to 0.1% identified as a carcinogen or potential carcinogen by ACGIH. NTP No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA. Reproductive toxicity No data available	LD-50	0 Subcutaneous – Mouse	1,500 mg/kg
Respiratory or skin sensitization No data available Germ Cell mutagenicity No data available Carcinogenicity IARC Carcinogenicity IARC ACGIH No component of this product, present levels greater than or equal to 0.1% identified as probable, possible or confirmed human carcinogen by IARC. ACGIH No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH. NTP No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No data available Teratogenicity Developmental Toxici	Skin	corrosion/irritation	No data available
Germ Cell mutagenicity No data available Carcinogenicity IARC No component of this product, present levels greater than or equal to 0.1% identified as probable, possible or confirmed human carcinogen by IARC. ACGIH No component of this product, present at levels greater than or equal to 0.1% identified as a carcinogen or potential carcinogen by ACGIH. NTP No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. OSHA No data available Teratogenicity No data available Teratogenicity Suspected Human Reproductive Toxicant Specific target organ toxicity-repeated exposures (GHS) No data available Aspiration Hazards No data available Signs and Symptoms of Exposure Nausea, Dizziness, Headache To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated Synergistic	Serio	ous eye damage/eye irritation	Rabbit: Moderate eye irritation – 24 h (Draize Test)
Carcinogenicity IARC No component of this product, present levels greater than or equal to 0.1% identified as probable, possible or confirmed human carcinogen by IARC. ACGIH No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH. NTP No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH. NTP No component of this product, present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA. Reproductive toxicity No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA. Reproductive toxicity No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA. Reproductive toxicity No data available Teratogenicity Developmental Toxicity – Rat-Oral Effects on embryo or Fetus: Fetotoxicity (except death, e.g., stunted fetus). Specific target organ toxicity-repeated No data available exposure (GHS) No data available Signs and Symptoms of Exposure Nausea, Dizziness, Headache	Resp	iratory or skin sensitization	No data available
IARC No component of this product, present levels greater than or equal to 0.1% identified as probable, possible or confirmed human carcinogen by IARC. ACGIH No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGH. NTP No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGH. NTP No component of this product, present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP. OSHA No component of this product, present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. Reproductive toxicity No data available Teratogenicity Developmental Toxicity – Rat-Oral Effects on embryo or Fetus: Fetotoxicity (except death, e.g., stunted fetus).
