

## **Aurochemicals Standard Ingredient Form**

This form facilitates the verification process for enrolled participants. The Non-GMO Project (NGP) Standard requires FoodChain ID to assess all potential GMO (\*) risk ingredients, including highly processed ingredients and sub-ingredients. Detailed information from suppliers is required and highly appreciated. Thank you for your cooperation.

Name of Ingredient: MASSOIA LACTONE 98%, Natura	FEMA Number 3744	
Name of Ingredient Manufacturer: Aurochemicals		
1. Is this ingredient 95+% Certified Organic?	□Yes □No ⊠ Or	ganic Compliant
2. Has this ingredient been verified as a product through the	Non-GMO Project Product Verification	Program?
		□Yes ⊠No
If you have answered YES to question 2, please answer questions, move to the end of this document and fill out the s 2, please proceed to question 3.		•
2.1 Please provide the Certificate of Verification for the NGP product/ingredient name on the certificate or listed in an	n addendum.	
2.2 Does a third party receive/handle the material before re-	ceived a client's facility/copacker?	□Yes □No
2.3 Does the third party handle the NGP verified product in p *Permeable form: handling of NGP verified	product in unsealed form.	□Yes □ No
If you have answered question 2.3 yes, please provide SOP's f handling location.	or segregation and traceability for the	third-party
3. Is the ingredient or any of its sub-ingredient and/or the so	urce crop/raw material of the ingredie	nt/sub-
ingredient genetically modified or derived using Biotechnolog	gy¹ methods?	□Yes ⊠No
4. Ingredient properties (check either box A or B, displayed box A. The ingredient consists of a single input ("mono	-	terial source
(e.g. flax seed): Select this option of contain (or is used to process) any additives (i.e. pre processing aids (enzymes, solvents, extractants, mic lf you checked box A, please skip question 5.	only if this is a 100% single ingredient a servatives, carriers, anti-caking agents	and does not , etc.) or
$\Box$ B. The ingredient contains multiple inputs ("comp more than one input.	ound"). Select this option if the ingrec	lient contains
5. In the table displayed below, list all of ingredient's raw marfermentation media/substrates, and any other inputs that are

in the table above. Please answer the following questions for a proprietary formulation as well.	fully disc	closed
6. Does this ingredient contain any processing aids <sup>2</sup> which are present at 0.5% or more?	□Yes	⊠No
If yes, please name the processing aid(s)* below:		
* For purposes of the Non-GMO Project Standard, fermentation microorganisms are not considered processing aid	ds.	
7. Is this ingredient or its sub-ingredients made through a fermentation process (using a microorganic	-	⊠No
7.1 If Yes, is the microorganism genetically modified?3	□Yes	□No
7.1.1 If Yes, is this ingredient separated out from the fermentation medium*? (*The microorganism used for fermentation grow in specially designed growth medium which supplies required for the growth of the microorganism, such a medium is called the Fermentation Medium)	□Yes the nutrie	_
8. Is this ingredient or any of its sub-ingredient a microorganism?	□Yes	⊠No
8.1 If Yes, is the microorganism genetically modified? <sup>3</sup>	□Yes	□No
If you have answered Yes to question 8.1 please answer the following questions:		
8.2 Is the microorganism viable? <sup>4</sup>	□Yes	□No
If No, please explain how is microorganism are rendered non-viable (list processes used):		
9. Is this ingredient or any of its sub-ingredients an enzyme?	□Yes	⊠No
Please list ingredient/sub-ingredient(s) and/or all inputs to which your response applies:		
9.1 If Yes, is the enzyme(s) derived from a genetically modified organism? <sup>3</sup>	□Yes	 □No
If you have answered 'Yes' to question 9.1 please answer the following question.		
9.2. Is the enzyme still functional <sup>5</sup> in the finished enrolled product?	□Yes	□No

If No, please explain how the enzyme is deactivated/denatured (i.e. briefly describe processes used to render the enzyme non-functional):
